

Timestamp	Class name and professor	Is this class required?	How many hours a week / Review of professor	Would you recommend taking this class?
10/23/2018 14:18:44	FINA 4200	Yes	2-4 Vj is super great even though his lectures are a little dry. His tests aren't as easy as Hund's (from what I've heard) but he makes sure that you really understand the content.	YES!!
10/23/2018 14:24:16	Buys 4000, morse	Yes	0-2 So sweet	Yes
10/23/2018 14:31:03	Applied Corp Finance- Schwartz	Yes	2-4 Super nice, gives a LOT of partial credit on exams, 10 pop quizzes but also very lenient. 6 case studies and again very lenient. Attendance is not mandatory but I've always gone because he makes it interesting	yes!!
10/23/2018 14:32:00	Corp Finance- Goel	Yes	2-4 very dry, extremely boring class, speaks very slowly and is not very helpful	I'm not sure how the other professors are, but if you have a better option, I would go with that one
10/23/2018 14:33:30	Financial Modeling Online- Pope	Yes	0-2 Pope is great, he posts videos on eLc explaining how to use Excel for modeling. 3-4 assignments due every Sunday, 3 group projects, and an Experiential Learning Project. The grading seems to be relatively lenient, and it being online is extremely convenient	yes!!
10/23/2018 14:45:26	MARK3000 - McManus	Yes	0-2 she's kinda quirky but she's funny and I actually enjoyed going to class, her tests are soo easy, you can skip all you want (but I would go for extra credit- 2 pts per test), and it's not hard to get an A if you put work in!	100% yes
10/23/2018 14:46:35	FINA3000 - Pope	Yes	4-6 Pope is awesome, some people hate him, but I like his teaching style. He goes pretty quickly, but if you PRINT OUT THE NOTES and follow along, you'll have all you need to do the HW's and do well on the tests. Pope is also v sweet when it comes to helping outside of class - he'll help with finance interviews and such!	yes!!
10/23/2018 14:48:07	MGMT3000 - Lyons	Yes	2-4 Lyons is a cool guy, total push over, and makes the class easy. He does take attendance on Top Hat, but it doesn't count for much. I think his tests are challenging bc he doesn't do a great job of preparing his students for his tests, but if you read the book and study the powerpoints/know the cases, you'll do well.	I mean, you have to - but look into reviews on Hopkins
10/23/2018 14:49:27	PSYC 101 - Frick	No	0-2 Frick is great and all as a person and professor but she sucks when it comes to overall class grade. a 94 is an A and the tests require a crap ton of studying and detail memorization.	Yes
10/23/2018 14:51:41	LEGL2700 - Cumban	Yes	4-6 (disclaimer: I took this as a Majormen) QUINTON IS AWESOME. I really loved him as a person and as a professor. I don't find his course to be particularly challenging, if you go to class and read the assigned readings, you'll do just fine! He's always up for helping his students and he's a very experienced professor!	10/10
10/23/2018 16:54:28	MARK 3000 - McManus	Yes	2-4 Tells personal stories and is extremely energetic, makes the class feel like it goes by fast, from what I've heard so is the less time-consuming marketing teacher	Yes
10/23/2018 18:15:57	BUSN 4000 Jack Morse	Yes	0-2 He was really nice and cooperative, always willing to help.	Yes
10/24/2018 14:28:00	Accounting 1-Swath Bhandarkar	Yes	4-6 I loved her. I wish she taught other accounting classes because I would definitely take her again.	
10/24/2018 14:30:16	Microeconomics Chan	Yes	4-6 To be blunt, he was awful. You basically had to teach yourself everything. The class is doable but take it with another professor.	Not with him
10/24/2018 14:31:23	Econ 2100-McGahue	Yes	0-2 I love McGahue. His notes, homework, and tests are very straightforward. He is also a very nice guy.	Yes
10/24/2018 16:58:15	FINA 4000H Poulson	Yes	4-6 Great, super understanding and helpful, accessible and thoughtful, take her if in honors and have the option	Yes
10/24/2018 16:59:08	FINA4050	No	2-4 Netter is a funny guy, you get in what you put into this class, it's def one of the easier fina electives	Yes
10/25/2018 8:32:52	Logi 4400 - Dr. Bennett Alexander	No	0-2 She gets off on a lot of tangents and I don't feel like I'm really learning much but her tests aren't too hard and her PowerPoints are extremely helpful if you are interested in Law school.	If you need a teacher recommendation she is a good person to have on your side!
10/26/2018 10:11:18	FINA 4200 professor Hund	Yes	0-2 Hund is great and does a good job talking through the material in class. Overall he's pretty easy and the material is less intense than FINA 3000 and pope so that's a plus.	Yes!
	RMAN4000H Eckles	No	2-4 Eckles is hilarious. The tests are easy if you pay attention in class and study. He doesn't really take attendance
